

Checkpoint 360^o™

Profiles Sales Assessment™ Profiles Sales Indicator™
Workplace Engagement Survey Profiles Managerial Fit™

The **Checkpoint Management System** is a 360-degree assessment. It is used primarily to evaluate the effectiveness of your managers and leaders. This assessment combines feedback from direct reports, peers, supervisors, and even customers, with a personalized program for

developing specific leadership skills based on that feedback. This process highlights a manager's job performance in eight universal management competencies: communication, leadership, adaptability, relationships, task management, production, development of others, and personal development.

Why Assess Employees with CheckPoint 360^o™?

The CheckPoint 360^o™ helps managers identify and prioritize their own development opportunities. It also helps the organization to better focus management training and development investments, proactively uncover misaligned priorities between senior executives and front-line managers, and surface management issues that could lead to low employee productivity, morale, satisfaction and turnover.

The CheckPoint 360^o™ Leadership Competency Feedback System is based on four integrated components designed to streamline the leadership development process: CheckPoint 360^o™, Organizational Management Analysis™, SkillBuilder, and Coaching Services.

How Does It Work?

Checkpoint 360^o™

The CheckPoint 360^o™ is the foundation survey and assessment tool used to:

- Gather perceptions of the manager's leadership capabilities from the manager and a reference group of boss, peers and direct reports

www.profilesinternational.com

- Enable a complete understanding of the manager's capabilities across eight key management competencies and 18 key Skill Sets
- Provide insight into each Skill Set through a robust set of reports

Organizational Management Analysis (OMA)

The OMA consolidates CheckPoint 360^o™ assessment data from the entire management team to create an executive view of an organization's management capabilities.

SkillBuilder

Profiles SkillBuilder™ leverages the findings from the CheckPoint 360^o™ to create a personalized improvement plan for each management Skill Set that requires further development
